“Zachary & Sons approached our project as if they were building their own personal home. Their attention to detail as well as their craftsmanship in a complex mountain build rendered an award winning home we couldn’t be happier with.”

Armondo Pondo & Coby Nichols

About Our Work

When people ask us, "what makes Zachary & Sons Homes different from other builders?" we answer, "Tradition." Our family has been building homes for six generations so quality construction is in our blood.

Our Process

Working directly with clients from all over the country, our team places particular emphasis on quality. From foundation work to bathroom finishes, we are committed to crafting a client's custom design to include quality materials that can reflect the level of care and attention that has gone into the project from start to finish.

Building in Santa Fe

Building in Santa Fe offers our clients the perfect opportunity to craft a custom home that blends tradition with modern elegance. As the oldest capital in the United States, Santa Fe presents us with unlimited inspirations for design. Whether it is the rich and warm palate of the Native American pueblos, the stunning austerity of the desert landscape, or the detailed tile work of the Mexican and Spanish artisans, Zachary & Sons innovatively captures the feel of Santa Fe while tailoring every project to fit our client's vision.

Our Team

Our nearly thirty years of experience has allowed us to build close relationships with the area's top architects, designers and sub-contractors. Together with this dedicated team of professionals, we masterfully craft each client's vision into reality. Building is not just a career to us. It represents generation's worth of family pride, hard work, and passion for quality homes.
